

DUCHESNE-STRAWBERRY RIVERS DISTRIBUTION SYSTEM

** 1973 ASSESSMENT **

\$ 9,250.00

BASIS OF ASSESSMENT:

The 1973 Annual Water Assessment is based upon the Commissioner's Annual Report of water delivered to each user during the year of 1972. This is in accordance with the minutes of the Annual Water Users meeting of March 15, 1972.

CALCULATION OF ASSESSMENT:

The commissioners report for 1972 states that 302,381 acre-feet of water was diverted by the water users during the year of 1972. The 1973 assessment in the amount of \$ 9,250.00 is divided by 302,381 acre-feet which equals \$ 0.0305905464, which is the cost of one pro-rata acre² foot of water. This amount multiplied times the number of acre-feet of water reported as used during 1972 by each water user is his or her pro-rata share of the 1973 assessment.

PROOF:

302,381 times \$ 0.0305905464 equals \$ 9,250.00

Prepared by:

Richard R. Pexton
March 26, 1973

NOTE:

See attached list of water users which/used Penvanes and Penvane Brackets and the Distribution System was to be repaid in this amount, by the individual amounts being added to each 1973 Water Assessment.
